

Newsletter

Issue 11 - June 2024

Editorial

Dear Reader,

In this issue of newsletter, in addition to the highlights on the recent activities of the project in second quarter of the year 2024, we wish to present how technology is playing a pivotal role via the Green Deal Call-funded projects in minimising the risk to human health from chemical exposure.

The recent article from Green Deal Projects Support Office, [Green Deal Call-funded projects taking a digital systems' approach to delivering the Green Deal](#) presents the Four projects – **ALTERNATIVE**, **LIFESAVER**, **PANORAMIX** and **PROMISCES** that employ digital systems approach by developing digital tools – to assess and monitor the risks to human and environmental health posed by harmful chemicals.

An interesting Partner event is being planned, so don't miss to read the last section and join the upcoming panel discussion!

Kind regards,

The ALTERNATIVE Project Team

Dissemination Activities of the EU-Funded

Project ALTERNATIVE

The ALTERNATIVE project, funded by the European Union, aims to address issues on human health from chemical exposure. This project primarily focuses on cardiac and develops an innovative platform for assessing the cardiotoxicity of chemicals. A crucial aspect of the project's success lies in its dissemination activities, which ensure that the learning, knowledge, findings, and innovations generated reach a wide ...

Events in planning

ALTERNATIVE & LIFESAVER Workshop: Promoting Sustainable Healthcare Practices for a Sustainable Living

We join forces to foster innovations in healthcare research and open the panel that will discuss on how projects ALTERNATIVE and LIFESAVER contribute to the circular economy and thus sustainable future.

We plan to cover:

- How projects ALTERNATIVE and LIFESAVER contribute to regulatory advancements and health safety?
- What are the technological innovations that have been pivotal in these projects?
- Discuss the intersection of technology and regulation in enhancing healthcare safety.
- How do we foresee the impact of your project findings on future health policies and practices?
- What collaborative opportunities exist between the projects to further enhance health safety?

If it interests you, then get in [touch with us](#) for further details on registration!
